Dr. S. SenGupta,  
BDS, FDS, RCPS, PGDip (Ortho)

Dr. SenGupta was trained and practiced in the UK, and is currently the principal dentist at Dr. SenGupta & Associates in Antigua & Barbuda, and Guyana (South America), as well as a visiting specialist in St. Lucia.

Since 1994, he has been a pioneer of dental implantology in the Eastern Caribbean, after post graduate studies in the US and Europe earning several Diplomates and Fellowships with numerous international organisations.

Always passionate about continuing education he has founded 3 post graduate implant training companies in the West Indies, culminating in this Implant Continuum, "Fundamentally Implants".

Having presented throughout the US, the Caribbean, Australia and New Zealand he brings a wealth of hands on knowledge to the contemporary practitioner who wants to get started in implantology.
